

84N5 Series

Universal Sheet Metal Press Shop Gripper

DESTACO's 84N5 sheet metal gripper is the universal solution for press shop gripping applications. The 84N5 gripper accelerates your press tending productivity with a lighter, faster and highly flexible gripper that can accommodate most press shop needs. The 84N5 features easy in-field jaw reconfiguration, adjustable opening angle, multipoint sensing and minimal field maintenance.

Developed for high-speed automation now you can increase your productivity using lighter tooling weighing as little as 0.68kg with an actuation speed of 70ms and a grip force up to 1200N. The small footprint of this gripper will fit into existing applications for easy system upgrades.

Designed and tested for long life, this patented gripper requires minimal maintenance. A variety of sheet metal thickness tips, field changeable jaw kits, multiple blank and double blank sensing solutions provide extreme versatility. With the wide offering of mounting options, the 84N5 is a universal press shop gripper solution.

US Patent #10549431

Product Highlights/Options

- Full range adjustable jaw opening
- Interchangeable jaws
- Fast on-site configuration changeover
- Optional multipoint sensing
- Easy field maintenance

Features, Markets and Applications

<p>STRENGTH</p>	<ul style="list-style-type: none"> • Powerful grip force up to 1200N at 5 bar • Self-lock jaws grips sheet metal securely if air pressure is lost • Integrated hardened steel impact plates protects gripper body from panel impact 	<p>AUTOMOTIVE</p>	<p>STAMPING</p>
<p>PERFORMANCE</p>	<ul style="list-style-type: none"> • Ultra-fast 70ms actuation for high speed press shop automation • Multipoint sensing for blank, double blank, full open, and full close detection • High durability with minimal maintenance 	<p>CONSUMER</p>	<p>ASSEMBLY</p>
<p>INTERCHANGEABLE</p>	<ul style="list-style-type: none"> • Quick changeover from single to double tip configurations • On-demand opening angle adjustment • Wide selection of interchangeable mounting solutions 	<p>AEROSPACE</p>	<p>CNC MACHINING</p>

ACCELERATE® PRESS SHOP GRIPPER

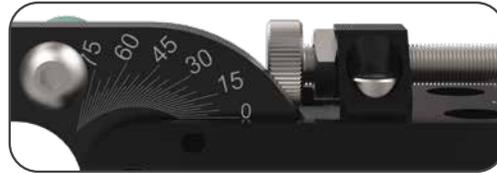

84N5 Series Sheet Metal Grippers

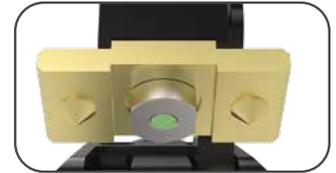

The **84N5 Universal Sheet Metal Gripper** is available in three jaw types. The modular design allows the jaws to be exchanged in the field quickly and easily with the use of a single allen wrench.

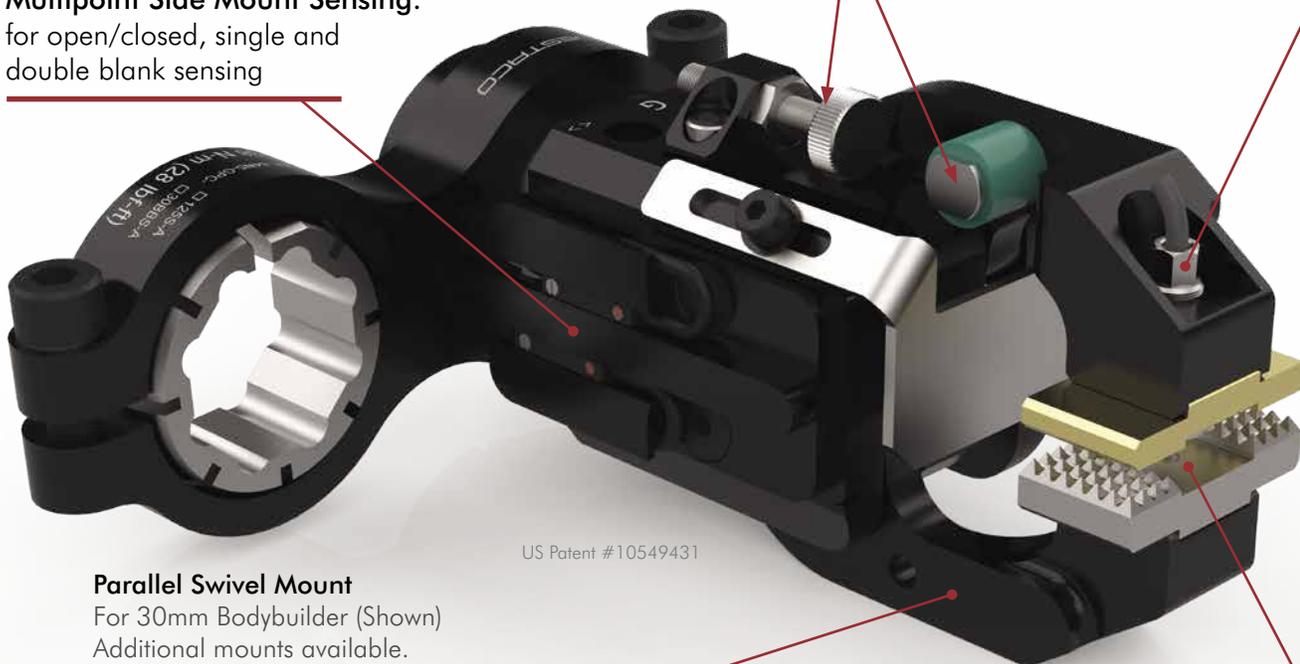

Multipoint Side Mount Sensing:
for open/closed, single and double blank sensing

Optional Angle Adjustment Kit:
for multiple jaw openings in one gripper

Optional In-Jaw Sensor
for part present sensing

US Patent #10549431

Parallel Swivel Mount
For 30mm Bodybuilder (Shown)
Additional mounts available.

84N5-X-075-FA
Fixed Lower Jaw

• Zero Jaw Protrusion

84N5-X-075-DA
Double Open Jaw

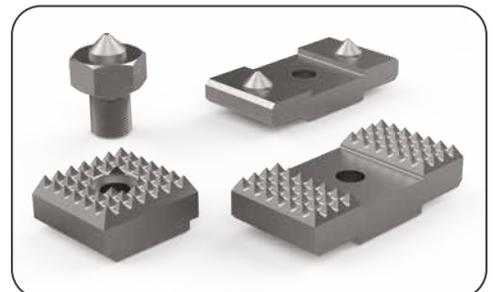

84N5-X-075-PA
90° Jaw Configuration

Interchangeable Jaw Tips:

Single & double cone or serrated style tips can be used in different configurations for different contact points and part thicknesses

ACCELERATE® PRESS SHOP GRIPPER

84N Series Jaw Options | Flexible and Adjustable

Field Adjustable Jaw Opening

The 84N5 sheet metal gripper with angle adjustment kit option installed allows jaw opening angle to be adjusted quickly in the field from 15° up to maximum 75° simply with the turn of the stopper.

Convenient Angle Marking
For easy identification of jaw opening angle

DESTACO's **84N5 Series** is latest addition to the family of Accelerate® Press Shop Sheet Metal Grippers

DESTACO 84N Series Accelerate® Press Shop Sheet Metal Grippers are up to:

60% lighter* (0.27-0.68kg)

40% smaller* foot print

62% faster* actuation (33-70ms)

100% DESTACO innovation

Specification	Unit	84N1/84N2	84N5
Grip Force at 5 bar	N	Up to 1000	Up to 1200
Weight (FA jaws - no tips)	Kg	0.27	0.68
Size L x W x H (Open)	mm	110 x 43 x 64	149 x 46 x 95
Actuation Time	ms	33	70
Minimum Operating Pressure	bar	3	4
Opening Angles		30°, 45°, 60°, 75°	75°, ADJ (15°-75°)
Piston Ø	mm	25	32
Air Consumption/Cycle	L	.015	.036
